

Iridium GO! exec™

2023-06 v1

A Smart Companion for Your Smart Devices

Iridium GO! exec™ is a portable wireless access device for smartphones and laptops. Powered by the Iridium Certus® 100 midband service, it enables Wi-Fi connectivity for select messaging, email, social media, weather, and light web browsing apps, as well as simultaneous access to two high-quality voice lines for calls to friends, family, and co-workers.

This light and compact product offers portable personal and office connectivity and combines the features of a battery powered Wi-Fi access device with the built-in functionality of an Iridium® satellite phone. Users can make phone calls directly on Iridium GO! exec using the built-in speakerphone and microphone or connect wirelessly to the device within a range of up to 30 m (100') from their smartphone using an Iridium GO! exec app for phone calls and internet access.

Key features

- Modern, compact, portable design with color touchscreen
- Up to 22 Kb/s Transmit/Up to 88 Kb/s Receive
- Built-in secure Wi-Fi connectivity
- Multi-user access for up to two voice calls or multiple data connections simultaneously with built-in speakerphone & microphone functionality
- Dual USB-C, Ethernet & external antenna/GPS ports
