

End-User/End Use Form

This instruction page is provided to support completion of the attached End-User/End Use Form. The information and certification requested enables NAL Research Corporation (NAL) to obtain the required export authorization necessary to release NAL product for shipment in accordance with your Order.

Please copy and paste, or print the completed form pages following this instruction page on your company letterhead. The form must be fully completed, signed by an authorized official of your company, initialed and dated on each page, and returned to B5 @ before your order can be processed. Please type or print legibly and provide sufficient information to support NAL's complete understanding of the End-User/End Use for this export order.

After completion of the above tasks, please sign, date, and fax or e-mail the completed form to the address below to the attention of the account manager or sales administrator who has assisted you with this order.

STATEMENT OF ULTIMATE CONSIGNEE AND PURCHASER

We certify that all of the facts contained in this statement are true and correct to the best of our knowledge and we do not know of any additional facts which are inconsistent with the above statement. We shall promptly send a supplemental statement disclosing any change of facts or intentions set forth in this statement which occurs after the statement has been prepared and forwarded. We will not re-export, resell, or otherwise dispose of any items approved on a license supported by this statement (1) to any country not approved for export as brought to our attention by means of a bill of lading, commercial invoice, or any other means, or (2) to any person if we know that it will result directly or indirectly, in disposition of the items contrary to the representations made in this statement.

We are the end-user of the goods described in Section 1, which are to be supplied by NAL.

We further certify that we shall use the goods for the purposes described in Section 5 and 6;

The goods will not be used for any purpose connected with chemical, biological or nuclear weapons, or missiles capable of delivering such weapons, nor will the goods be used for any missile program or to enhance any missile technology;

The goods will not be re-exported or otherwise re-sold or transferred if it is known or suspected that they are intended or likely to be used for such purposes;

End-User/End Use Form

The goods will not be diverted to another destination; and,

The goods will not be used for any military end use. Military end use is defined as *incorporation into a military item or for the "use", "development", or "production" of military items.*

"Use" means operation, installation (including on-site installation), maintenance (checking), repair, overhaul and refurbishing; "development" is related to all stages prior to serial production, such as: design, design research, design analyses, design concepts, assembly and testing of prototypes, pilot production schemes, design data, process of transforming design data into a product, configuration design, integration design, layouts; and "production" means all production stages, such as: product engineering, manufacturing, integration, assembly (mounting), inspection, testing, quality assurance.

Operation means to cause to function as intended; installation means to make ready for use, and includes connecting, integrating, incorporating, loading software, and testing; maintenance means performing work to bring an item to its original or designed capacity and efficiency for its intended purpose, and includes testing, measuring, adjusting, inspecting, replacing parts, restoring, calibrating, overhauling; and deployment means placing in battle formation or appropriate strategic position.

Where we are not the end-user, we will obtain the necessary information from the end user and ensure it meets the requirements as stated herein.

Any re-export of the goods will be conducted in accordance with the US Export Administration Regulations. Diversion of these goods contrary to U.S. law is prohibited.

If these commodities, technologies, and/or software are exported from the United States, it will be in accordance to the Export Administration Regulations. Diversion contrary to United States law is prohibited.

We confirm that these products will not be installed on military equipment, nor will they be transferred to any military end user, nor transferred for military use.
